Education

Master of Computer Applications (MCA) <i>Bipin Tripathi Kumaon Institute of Technology, Uttarakhand</i>	2024 – 2026 <i>CGPA: 7.85/10.0</i>
Bachelor of Science (PCM) <i>L S M Government P G College, Uttarakhand</i>	2021 – 2024 <i>Percentage: 59%</i>
Higher Secondary (UK Board) — Science Stream <i>Mathematics, Physics, Chemistry</i>	Apr 2020 – Apr 2021 <i>Percentage: 82.6%</i>
High School (UK Board)	Apr 2018 – Apr 2019 <i>Percentage: 75%</i>

Projects

LLM-Based Paddy Crop Disease Prediction & Advisory System	2026
– Built an end-to-end CNN-based paddy leaf disease classification system using MobileNetV2 and EfficientNet. – Achieved 100% accuracy through optimized transfer learning, preprocessing, and data augmentation. – Integrated a Large Language Model (LLM) to generate explainable insights on disease causes and treatment methods. – Evaluated model robustness using Precision, Recall, F1-score, ROC-AUC, and Confusion Matrix. – Automated academic workflows to reduce manual effort and improve operational efficiency.	
Smart College Operations & Academic Management System	2025-2026
– Developed a full-stack academic management system to handle students, faculty, courses, and attendance. – Implemented role-based access control (RBAC) with secure authentication for admin, faculty, and students. – Designed a normalized MySQL database schema to ensure data integrity and scalability. – Built responsive dashboards for real-time academic monitoring and reporting. – Automated academic workflows to reduce manual effort and improve operational efficiency.	
Enterprise Task Tracking & Workflow Management System	2025
– Developed an enterprise-grade task and workflow management system inspired by tools like JIRA. – Implemented complete task lifecycle management including assignment, prioritization, and status tracking. – Designed RESTful APIs for seamless frontend-backend communication. – Built analytics dashboards to monitor productivity, task completion rates, and workload distribution.	

Technical Skills

Programming: C, Java, HTML, CSS, JavaScript
Frameworks: React.js, Node.js
Databases: MySQL, MongoDB, Microsoft SQL Server
Tools: VS Code, GitHub, JIRA
Core Concepts: DSA, OOP, DBMS

Relevant Coursework

- Data Structures and Algorithms (DSA), Database Management Systems (DBMS), Operating Systems (OS), Web Development, Computer Networks (CN)

Certifications & Training

Python Certification (Python v9) <i>freeCodeCamp</i>	2025
Full Stack Development Refresher Program <i>Xcel Grade</i>	2025
Responsive Web Design Certification <i>freeCodeCamp</i>	2025
GenAI Powered Data Analytics Job Simulation <i>Tata Group — Forage</i>	2025
